

KOMUNIKAT**First Step to Nobel Prize in Physics
2003/2004***Waldemar Gorzkowski¹***Pierwszy krok ku Nagrodzie Nobla z fizyki 2003/2004**

Na stronie internetowej można znaleźć pełne sprawozdanie i wyniki z XII edycji konkursu „First Step to Nobel Prize in Physics”. Podajemy listę sześciu laureatów i tytuły ich prac:

- * Nikolay Atanasov HADZHIEV (Bulgaria)
Calculating Equilibrium Configurations of Particles on a Spherical Surface
- * Jakub KOMINIARCZUK² (Great Britain)
Extensive Studies of a String Telephone
- * Septinus George SAA (Indonesia)
Infinite Trigonal and Hexagonal Networks of Identical Resistors
- * Kana TSUMURA (Japan)
Why Does a Metal Become so Hot in the Sunlight
- * Agata KARSKA (Poland)
The History of Discovering and Exploring BD+14 °5016 Eclipsing Contact Binary
- * Yuriy Vladimirovich VOROBIEV (Russia)
High Surge Voltage Generator and Time Measurement of the Development of Two Types of Electric Discharge in Humid Air Depending on Pressure
